Step 4
Next, there are a few steps to setup your primary SuperPod. There is an option for Advanced setup, if needed.

Step 5
Enter your wifi name and password. (You can use current SSID and password of old wifi if available. You must disable old one first.) There will be a series of helpful onscreen tips for additional pod placement.
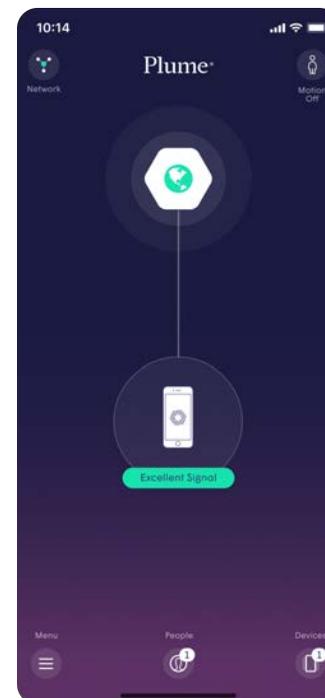

Step 6
If you have more than one pod, plug it in and add it to your network now.

Step 7
Be sure to enable notifications. This will help you be aware of your home network activity.

Step 8
The Plume app will prompt you to join the new wifi network.

We recommend restarting your modem after your NITCO SuperPods have been added.

Step 9
Finally, after you've allowed Plume to join your network, you'll be taken to the home screen.

Your new Plume wifi network will optimize to create the best performance for your connected devices.

Adaptive Wifi
LET YOUR WIFI DO THE THINKING

NITCO WiFi+ is more than a traditional mesh wifi system. It learns and adapts to how you use it, allocating capacity to those rooms and devices that need it the most.

AI Security
THE BEST DEFENSE IS A SMARTER DEFENSE

Your home is more connected than ever–a dangerous thing in the wrong hands. From halting suspicious activity to quarantining compromised devices, NITCO WiFi+ helps prevent and knock out threats in an instant.

Parental Controls
A MODERN PARENT'S NEW BEST FRIEND

Set internet usage limits. Restrict content on specific devices. Freeze your wifi to make sure family time stays in the family. They aren't parenting superpowers, but they're pretty close.

Motion Detecting
PLUME SEES WHEN YOU CAN'T

Plume Motion uses a behind-the-scenes algorithm to pick the devices that are best suited for motion detection, evaluating and switching to new devices if it determines one is better suited at that time.

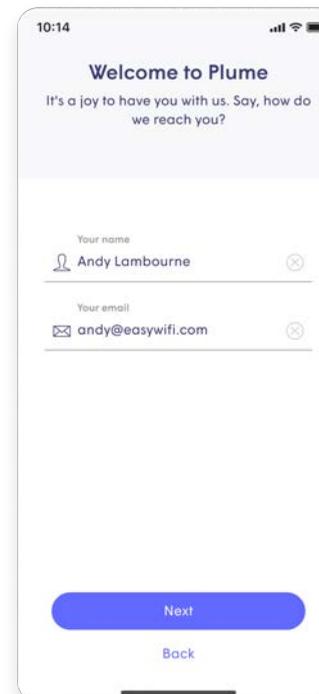

Welcome to NITCO Wifi+
Powered by Plume

**Before beginning your installation, please verify that you have:**

» Your Plume Pod(s) and one 7' ethernet cord

» The email and password that you set up when you ordered your Plume Pods

Step 1
Download the Plume app from either the Apple Store or Google Play. Next, launch the Plume app.

Step 2
Choose "Setup Plume", then enter your name and email that you supplied NITCO to create your Plume account.

Step 3
Enter password that you supplied NITCO.
