

10:14 ..II 🕆 🔳 Add more WiFi Spread pods around the home, and be mindful of common WiFi obstacles Found SuperPod Found Pod Found SmartThings Wifi hub 🗸 👌 Looking. Looking for [x] remaining pods. All done .ul 🗢 🗖 10:14 Plume<sup>\*</sup> 

P

Step 6

Step 9

Finally, after

you've allowed

Plume to join

your network.

you'll be taken

to the home

screen.

Your new

Plume wifi

network will

optimize to create the best

performance

for your connected

devices.

## If you have more than one pod, plug it in and add it to your network now.

How to create a Plume account and setup your SuperPod<sup>™</sup>

219 996 2981 | nitco.com

THE THINKING NITCO WiFi+ is more than a traditional mesh wifi system. It learns and adapts to how you

use it, allocating capacity to those rooms and devices that need it the most.

Set internet usage limits. Restrict content on specific devices. Freeze your wifi to make sure family time stays in the family. They aren't parenting superpowers, but they're pretty close.

A SMARTER DEFENSE Your home is more connected than ever-a dangerous thing in the wrong hands. From

halting suspicious activity to quarantining compromised devices, NITCO WiFi+ helps prevent and knock out threats in an instant.

Plume Motion uses a behind-the-scenes algorithm to pick the devices that are best suited for motion detection, evaluating and switching to new devices if it determines one is better suited at that time.

## Welcome to NITCO Wifi+ Powered by Plume

Before beginning your installation, please verify that you have:

- » Your Plume Pod(s) and one 7' ethernet cord
- » The email and password that you set up when you ordered your Plume Pods

..II 🗢 🔳

Welcome to Plume

It's a joy to have you with us. Say, how do

we reach you?
